Berlin, Aug. 27. (via London, 3:30 p. m.)—The Russian fortress of Orla on the Nieman river, 30 miles south of Kovno, has been evacuated.

In all the wide sweep of Russian territory south of the Baltic provinces which has been covered during the great Austro-German offensive movement, the fortress of Grodno is now the only strongly defended position remaining in the hands of the Russians.

Orla is the ninth important fortress to fall before the invaders in the last three weeks.

London, Aug. 27. (12:17 p. m.)—The Austro-German invaders have not only pressed their advance into old Russia, beyond the political borders of ancient Poland, but have penetrated well beyond the district of Russia proper inhabited by the Poles.

The main object of the German attack around Brest-Litovsk for a number of days has been the railroad running eastward from the fortress toward Moscow.

Although the admiralty thus far has not issued a report on the recent bombardment of Zebrugge on the Belgian coast, additional details of the damage inflicted continue to reach London.

Transference of considerable bodies of German troops from the eastern to the western front is reported in press dispatches.

Garrison Too Busy to Keep Teddy Sober

Says He Has Not Time to Prevent Him Committing Indiscretions.

Washington, D. C., Aug. 27.—Secretary Garrison made public today Major General Wood's reply to the secretary's telegram of yesterday directing that no repetition be permitted to the incident at the Plattsburg camp precipitated by former President Roosevelt's speech to the men in training there.

"Your telegram received and policy laid down will be rigidly adhered to," General Wood telegraphed.

"I have just read Mr. Roosevelt's statement," said Secretary Garrison in a statement today. "I see he blames the whole thing on me. He takes the position that it is notorious that he has the habit of making indiscreet speeches and that it, therefore, was my duty to find out if he intended to go to Plattsburg and if so to head him off and save him from himself. Well, maybe that's so, but it is a rather large order. He is a very active man and I am a very busy one, and it's going to be a pretty hard job for me to keep my eye on him all the time."

The war office also reports that in the Vosges to the north of Sondermach, the French have straightened their front and accelerated their installation on the mountain top between Sondermach and Landersbach. This was done by taking possession of several German trenches.

A French aviator last night bombarded at Dornach a plant where the Germans manufacture asphyxiating gases, and this morning a French squadron of airplanes bombarded the railroad station at Muehlheim in the grand duchy of Baden. All the French flyers returned unharmed.

The war office also reports that in the Vosges to the north of Sondermach, the French have straightened their front and accelerated their installation on the mountain top between Sondermach and Landersbach. This was done by taking possession of several German trenches.

Workers Dissatisfied With Conditions Fixed by Recent Arbitration Board.

ADMIRALTY ALARMED

The French front north of Sondermach in the Vosges has been straightened by the taking of several trenches which the Germans tried in vain to secure, the French war office claims.

London, Aug. 27.—Reports from the South Wales coal fields this afternoon state that 35,000 miners already have joined the new strike.

The recurrence of labor trouble is due to growing dissatisfaction with the award of Walter Runciman, president of the board of trade, who acted as arbitrator in the recent strike. The situation was strained further when the miners learned that Mr. Runciman had declined to see a deputation representing them.

The miners charge Mr. Runciman with going behind the arrangement made by David Lloyd George and demanding that Mr. Lloyd George make good his promises to them.

Disputes from Cardiff at the time the strike was called last month said that the terms accepted by the miners as a result of Mr. Lloyd George's trip to Wales provided for a substantial increase in wages and other concessions to the strikers, which were considered by them as tantamount to an admission of their claims on nearly all the outstanding points. Mr. Lloyd George won the men over not only by promising concessions but by emphasizing the fact that unscrupulous operators of the coal mines were highly essential to the conduct of the war.

Mr. Runciman's award contained wages concessions and rejected a number of demands relating to working conditions, hours of labor and arbitration arrangements.

The mine owners' federation sent an urgent request to the strikers today to return to work at once. The executive committee of the miners' organization adopted a resolution condemning the new strike as unjustified and urging the men to remain at work pending further negotiations.

A deputation representing the council is on its way to London in an attempt to overcome Mr. Runciman's objection to reopening the matter.
